

~~There were~~ upwards of forty-five to fifty service providers all ~~supplying~~ giving multiple, ~~varied~~ services to ~~the program's~~ a series of infants and toddlers. All of the services rendered had to be digitally captured in order to produce feedback needed to maintain funding for the program. I ~~was able to create~~ ~~the~~ an automated system with the ability to ~~be able to~~ house the necessary information. The automated system not only delivered error-free statistics, but ~~it~~ also maintained a high degree of flexibility ~~for users~~. ~~The system was capable of providing~~ handling information requests from both the ~~Federal and Local~~ Government information requests. ~~As a result, of closely listening to~~ ~~the~~ my client's needs, ~~and a skilled implementation~~, the automated system is now being utilized territory-wide.

I sincerely believe that attending ~~Attending~~ the University of the ~~obscured~~ and the ~~obscured~~ has fostered ~~not only my career growth, but also my personal growth~~ ability to think. ~~I have a deep~~ My love for all things technological. ~~My educational experience has~~ given me self-pride while supporting and managing IT networks, information systems (IS), ~~and geographic information systems (GIS)~~. ~~I have also been blessed with~~ and the ability to ~~foster~~ oversee the development and construction of decision support systems (DSS); and knowledge management systems (KMS). ~~I have been thoroughly~~ taught ~~Learning about~~ on the subjects of project management, principles of information systems, database systems, and organizational management and leadership at ~~the~~ George ~~obscured~~. ~~This~~ ~~has~~ all given me a very extensive ~~working~~ knowledge of Information Management & Technology. ~~Thus~~, ~~I find that I am~~ now able to understand and balance technical and business needs, and find the right solutions for my clients.
